## Health Department

Subscribe to Content Updates

Bill Murphy Health Director

The Board of Health and Health Department are responsible for addressing the health needs of the community. Traditional duties include site evaluation for subsurface sewage disposal, permit/licensing and inspections of food service establishments, summer camps, public swimming pools, stables, septic installers and haulers, septic system and private well installations, and supplying community-based nursing and mental health care services, as well as involvement in environmental health issues such as housing code violations, mosquito control, hazardous waste, animal/rabies control, public groundwater supplies and emergency preparedness.
