

Sudbury Board of Health

COVID -19

Public Health Advisory

At their meeting on February 8th, 2022 the Sudbury Board of Health assessed current COVID data and trending. As a result, the Board voted the following:

1. Effective immediately, Sudbury will align masking requirements to EEC Guidelines for ages 2-4 years of age;
2. Effective March 7th, 2022, transition from a masking mandate to a masking advisory for:

- **Public buildings, schools, and private childcare facilities;**
- **Retail stores;**
- **Retail food stores, food establishments, and bars until the customer is seated;**
- **Fitness centers/health clubs, dance studios, and all recreational facilities;**
- **Houses of worship;**
- **Personal service establishments: barber shops, hair and nail salons allowing for temporary removal during service.**

All individuals, regardless of vaccination status are advised to:

- Wear a face covering or mask that covers your nose and mouth;
- Wash your hands often with soap and water. Use hand sanitizer if soap and water aren't available;
- Get tested if you have been exposed to or have symptoms associated with COVID-19.

When possible, wear more protective masks, which are now readily available for the general public:

When you wear a mask or face covering, it should:

- Fit snugly but comfortably against the side of the face;
- Be secured with head straps, ties or ear loops;
- Allow for breathing without restriction.

Cloth face coverings should:

- Include multiple layers of fabric;
- Be able to be laundered and machine dried without damage or change to shape;
